Technical Report ECS–CSG–xx–yy
Department of Computer Science
University of Edinburgh

January 24, 1997

Abstract: This is an example document illustrating how to use the local Computer Science department technical report class for $\LaTeX\,2_\varepsilon$. This defines a generic document style for producing technical reports in both the LFCS and CSG groups.

Keywords: technical report, $\LaTeX\,2_\varepsilon$

1 Introduction

This is where all of your blurb goes...

Here is a footnote[1].
